

STAR XVIII Search

Photo taken by Piper Cates

Saturday, September 5, 2020

10:30 A.M. | at the farm, Modoc, Indiana

This has been a pretty normal year right? I hope as you receive this catalog everyone is safe and all of your loved ones are healthy. There are so many years where our biggest hardship we are all worried about and talking about is the weather. Through Gods grace things always seem to work themselves out and this will too. It has been so much fun attending these junior nationals and seeing everyone. People are happy, healthy, very positive, and genuinely just excited to be participating and seeing their friends.

We are so excited to have you in Modoc this year to see this set of cattle. We have not slowed down a bit and have stayed as aggressive as ever breeding and flushing cows, as we are very excited for the future of our breeds. So far the interest has been as strong as ever, and I can't wait to be there when you see the cattle in person. We will have a few things we try to do different to keep with the new rules that are in place for the time being. At the same time we are going to try and make your Star Search experience as normal, and enjoyable as possible.

I just want to again thank my amazing family for this great dream opportunity to do what I love.

I want to thank our awesome staff for their countless hours of hard work and dedication. Our success is a direct result of our herdsman Kyle Shoufler and the people we surround him with. I want to thank my wife and daughter for sharing me with my job and customers, and always showing me love and support. The hardest part of my job is the sacrificing of time spent with Piper as she grows up so fast. Luckily she understands at six-years-old this is all for her and we do this for our families. My grandparents as well as my Dad and Randy have set the perfect example for me and the type of business I want to run, and the type of person I want to be for my family. God will take care of us and never forsaken us. We can't wait to see you all sale day.

This 3289 cow absolutely can't miss. She has firmly established herself as the top donor cow currently at Cates Farms. We will have 15 calves coming out of her next year by four different bulls. That is how much we believe in this cow. This daughter has an incredible amount of dimension and power, but in a smooth attractive package.

LOT 1B - This Trump mating on 3289 really worked. This powerfully built female is a favorite of both my Dad and Randy. They have picked out a few that have gone on to be fairly successful over the past 40 years.

LOT 1C - This is a very broody complete made heifer, that doesn't have a major fault. The fertility and milking ability of this 3289 cow insures the profitability of these daughters after their show career.

CYT TIAWANA 864U ET

LOT 1D - This heifer reminds me a great deal of the full sister that won the junior nationals for Miller Smith. She possesses the same functional cowy look in maybe an even more attractive pattern from the side.

LOT 1E - This one is a spitting image of Ryan Wickards full sister that won Denver and was so successful two years ago. She even has the same unique color pattern. This one has stuck out since birth. She is on a great recip and will be about as chubby and ready to go as any heifer this age we have ever sold.

LOT 1F - This 3289 cow absolutely can't miss. She has firmly established herself as the top donor cow currently at Cates farms. We will have 15 calves coming out of her next year by four different bulls that's how much we believe in this cow. We have sold the only nine daughters that this cow has produced, and they have averaged \$18,750. You are guaranteed a heifer pregnancy. You do the math.

There have been a great deal of our top selling females that have went on to be national show winners as well as top donors. Only mother nature determines which ones it happens with. I guess God was a Trump fan after all (LOL). 526 A.K.A. the Trump has quickly became a major producer in just a few short years. We unfortunately lost her too soon this year so these daughters should be in high demand. This long look daughter is as big bodied as any heifer we have produced. This female's kind will be greatly admired by the modern day judges.

Bred to JSF McCoy; due February 16, 2021.

I really like this bred female. She would have been sold last year as a show but we were heavy on April's and she was a little slicker haired. This is a good structured female that should mate very well with Mccoy. Kyle and I had a chance to view the Paint Valley herd this Spring and were very impressed. We are excited to be using some of the bulls implemented in their program.

If this guy would have been just a little better in his man parts, we would be showing him as a bull this winter. People ask why we don't sell more steers and it is because the ones that would be the good steers stay bulls. This is a powerfully built dude that is huge boned and big butted. He is sound good looking and going to be hairy. We like him pretty well.

Bred to Leveldale Boardwalk; due October 6, 2020.

This is still one of my all time favorites. I think she was ahead of her time or in terms of body depth and belly swoop. I think that has allowed her to produce the caliber and number of herd bull she has, while being mated different ways. 2106 is eight-years-old but looks five. She is still very fertile milks well and has great feet. She is a consistent egg producer averaging 4.5 eggs per IVF flush.

We pride ourselves in offering young donor quality females each year that are entering their prime producing years for their new owner. This female was a successful show heifer but maybe an even more impressive brood cow. She is a sound footed heavy milking female that gets bred then raises a big, high performing calf. She should have these qualities replicated by flushing her, and you will have that opportunity.

Modoc Margie is without a doubt the most prolific cow that was ever produced here. A long discussion could be had discussing her top daughter. I am putting my money on 119. The 119 cow was a National Champion and has now produced two National champions and one Reserve. Not many can replicate that. This attractive roan daughter is very complete and reminds us a lot of the spotted full sister that was Reserve at Junior Nationals for the Inskeep family and AJ cattle.

	SULL LADY CRYSTAL-434P-1	MEPD 16

This has been a go to mating for Sullivan and one we are really having success with also. We sold a really good may heifer to Simon Farms last year that went o to win her division in Louisville, and looks to be very competitive this fall and winter. This beautiful hairy roan show cow has been very popular with all who have seen her.

	SHADYBROOK VERONA 59 U ET	MEPD 15

LOT 17A - These are full sisters to the fall heifer that topped our Modoc Madness Sale to Jackson Harlan. That heifer generated quite a stir this Spring. She had a nice start at junior nationals being selected third overall in her division. We think that heifer is going to be a force this fall and winter show season. This full sister has the same genuine muscle shape and added extension. She also has the same correct skeleton. The heifers out of this mating seem to be later maturing, but when you are trying to make big breds out of them that is not a bad thing.

LOT 17B - This Veronica is the smoothest designed of the three full sisters we have had. I like her structural design and the future she projects as a show heifer. The Veronica cow being Produced in the Great Shadybrook Farms herd insures her future as a brood cow.

GENERAL INFORMATION

Feeding & Showing Terms: We pride ourselves in the professional way we exhibit your purchases. Here, at Cates Farms, we employ some of the best fitters in the business at both the farm and the shows. We spare no expenses to exhibit your cattle to ensure your success. The charges below are not designed for us to make money, rather to insure we can continue to offer the best service to you. Each animal that will be located at Cates Farms show barn will be charged \$25/day. Each animal will be charged \$250/day while attending shows with Cates Farms crew. This will cover all expenses while at shows. All animals must be insured while in our care/possession. Any veterinary expense above routine will be owners obligation. All accounts will be billed monthly. **Location:** The sale will be held at the farm which is located one mile east of Modoc on Route 36, on the north side of the road. **Air Travel:** There are commercial flights to Indianapolis, Indiana, and Dayton Ohio. There are private paved strips at New Castle and Winchester, Indiana. **Terms:** The terms of the sale are cash or check payable to Cagwin Cattle Services, Inc. Payment to be made to the clerk immediately following the sale and before the cattle are removed from Cates Farms. Purchasers or their representative must sign the bill of sale prior to leaving the sale site. **Billed Accounts:** All billed accounts are due and expected within 10 days of the sale date. **Insurance:** will be available for your purchase at the sale through Harding & Harding. Contact either their representative or the clerk at the settlement desk. **Health:** Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All vaccinations are up-to-date and cattle born at Cates Farms have been vaccinated. A list will be available on sale day listing any non-vaccinations. **Flushes:** All females in which flushes are retained, semen will be provided by Cates Farms. Flushes to take place in new owner's possession. Cost will be split. On all flushes sold, Cates Farms will offer semen on any of our bulls. **Breeding Guarantee:** All cattle sell under the Standard Breeding Guarantee recommended by the American Shorthorn Association. An

exception would be through mishandling either obesity or under nourishment and illegal practices associated with showing the female. **Registration & Transfer:** All animals sell with completed pedigrees or applications for registration. **Announcements** made sale day will take precedence over printed material in this catalog. **Genetic Conditions:** We apologize that the results for all genetic conditions are not done at the time of the catalog. We at Cates Farms feel it is very important to have all carriers identified we also believe cattle with these genetic conditions are still as valuable and useful as before. It is up to us as breeders to simply be responsible when mating them. Complete results on all genetic conditions should be done by sale day and will be provided to you on an added sheet. **Liability:** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending. **Transportation:** The Cates Families will make every effort to assist you in your transportation needs. Local trucking will be available.

Mail Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of Cagwin Cattle Services, Inc., a special representative, a sale consultant or a member of the Cates Farms firm far enough in advance prior to sale day. They will be able to assist you at ringside on sale day. **Breeding Update/Calving Information:** There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Cates Farms retains the rights to a 1/3 embryo interest on all heifer calves selling in this sale.

Here is another female that has been a farm favorite since birth. This Beautiful ultra impressive female is out of Winegardner's extremely popular Onset bull and an Angus donor that I own with Jarod Boyert. Breeding options are limitless on this one also, and is going to have a heifer calf for you next Spring.

36A CATF STYLE WHISKEY SW1G

Cow | Polled | Black | 03.1.2019 | SW1G | Perfor# P511959

SILVEIRAS STYLE 9303	GAMBLES HOT ROD	BEPD -
	SILVEIRAS ELBA 2520	WEPD -
	IRISH WHISKEY	YEPD -
GCC ALL RIGHT ALL READY	ANGUS 2/521/ MAINE-ANJOU (3/8)	MEPD -

Lot 36A is a commerical heifers, but when bred to a bull over 50% Maine-Anjou, etc., you will be able to register their calves.

Bred to CF S/F Ultimate Reward; due February 1, 2021.

These two impressive bred females are going to be fun to breed on. I feel you could go a number of ways because of their quality and build. Their mother is a past Louisville Supreme Champion female and out of the universally popular Silveiras Style. I think you will be impressed by them.

THE SEMEN

Grand Champion Shothorn
Female, 2018 Hoosier Beef Congress,
shown by the Fry family and a Leveldale
Boardwalk 530C daughter.

	C F TOP LINE LADY 814	MEPD -

I had the benefit of getting into the Angus business with Cortney's family. This gave me a chance to admire from the outside and be able to decide what kind of cattle I wanted to produce and what genetics were working, before I jumped in with both feet. The Lady 814 cow was one of the first Angus females I fell in love with and was one I knew I wanted to build our herd around.

We are so proud to offer the first On Point daughter born here. I've never had more positive calf reports on a bull than I have On Point. This female is everything we could have hoped for and can't wait for you to see her in person.

We understand that we live in the show cattle capital of the world and that raising show cattle is going to be how we feed our family. I also made Cortney a Promise that we would not lose focus on the basic fundamentals that make an Angus female great. We feel this female can show competitively and be a big time donor that will mate perfectly with all the industries popular show cattle sires.

Retaining half embryo interest.

The Lady Impression female was one of the first females that brought recognition to our SSF Program. She was a dominant show heifer that is producing the kind that can compete on any level. With this May Express daughter we feel she has hit a new career high. This heifer has been an absolute standout since birth. I have found that doesn't occur a lot with Angus compared to Shorthorns. We are so proud to have produced this heifer with our Great friends David and Lanis Smith.

Bred to Bismarck; due February 22, 2021.

This is a very nice bred female that was 333's natural calf, and had to spend a large amount of her life at a donor facility. I would say she definitely caught up. Our Watchout daughters are without a doubt our best young cows.

LOT 44A - The 333 Cow has certainly established herself as one of our main donor cows. This Style mating is as consistent as any we have. This is a very square built attractive female, that should help carry on the winning ways of her sisters.

LOT 44B - This late April female has a very similar look and build to the very popular May Sullivan heifer that we are currently showing. There is definitely proof and predictability in this mating.

This outstanding Watchout daughter is hard to poke a hole in. She is very dimensional in her body and muscle, and very correct in her balance and structure. We feel this one should be very competitive.

SSF Blackcap 4037, Reserve Grand Champion Heifer, 2019 All-American Angus Futurity, shown by VanVorhis.

Bred to PVF Insight SEXED HEIFER semen; due December 28, 2020.

Here is a very attractive feminine made Watchout daughter out of the dam of our 5220. This female is packed with maternal on both sides and should definitely be a strong milker. We were very fortunate getting heifers bred this year and here is another one that will have a heifer calf.

This is a great opportunity to bring in an awesome young donor that can be flushed to all the current show bulls. We always liked the 6518 donor and have three daughters of her. We feel this females extra size length and eye appeal are suited perfect for today's popular bulls. She will calve early to the ultra exciting On Point bull then you can commence to flushing.

I think this is one of the best breds we have ever sold. I love this females genuine width all the way through. She is very attractive and has great size and performance. The Ellen cow family has proven itself time and again for us.

We Purchased this female with Dameron's as a bred heifer in the MCM dispersal sale. She is a full sister to the winning females Carter Ward showed that are now producing so well for the his families exciting breeding program. This is an extremely impressive individual that has produced well for us. She has been IVF twice and averaged six eggs.

Bred to Stevenson Turning Point SEXED HEIFER semen due February 1, 2021.

Here is a beautiful royally bred female that is at the top of the group. Both females numbers and future turning point heifer calf's numbers should be impressive. This females mother was an embryo purchase from the Sanky family. She has a Blacklist bull calf on her that will be making his debut in Denver. He is a unique creature.
